So, is the selling price of this smart watch commensurate with the quality provided? Below we share a short review of this smart watch. Read more in detail in the following article.

6 Advantages of the Apple Watch Ultra that are Important to Know

1. Wide screen

The screen on this smart watch has a size of 1.92 inches. When compared to its competitors, a screen of this size is quite large. Coupled with a resolution of 502 x 410 px, this smart watch has a satisfying screen display.

The brightness level is also 2x the previous series. So, if used under the sun it will still be visible clearly. Apple in this smart watch series uses Sapphire crystal glass technology to make the screen more resistant to shocks and scratches.

2. Sturdy design

The design of this smart watch looks very sturdy and stylish. If Apple usually has a simple and slim design, this design is different. With titanium material, the body of this smartphone looks elegant and sturdy.

The review of the Apple Watch Ultra in terms of design can be said to be quite satisfactory. Plus there is a physical action button on the left. Even though it's not much different, you can see that the design in this series is more sturdy and stylish.

3. Advanced operating system

The operating system used in this smart watch is also very sophisticated. The presence of several supporting features makes this smart watch very interesting to use.

For example, a feature to detect if there is something strange about the heartbeat. This smart watch will provide the data to the user. Then the data can be downloaded to be taken with you during a doctor's consultation.

4. Varied rope

Talia knows that you can change the band used for this smart watch according to your wishes. Apple also provides various types and types of straps which are very varied. Starting from the shape and color, it is very stylish and unique

The specifications of the Apple Watch Ultra and its design are very beautiful. You can match the appearance of this smart watch to your daily outfit. Just by changing the strap, the appearance given will change according to your mood

5. Complete features

The features programmed into the Apple Watch are very complete. For example, the siren sound feature. This feature is useful to use when in urgent conditions and in dangerous situations.

The sound of this siren can be heard up to more than 100 meters away. Not only that, there is also a feature that displays the skin temperature sensor. Plus there is also a way points feature which is useful for use when traveling to the mountains.

6. Long battery life

The battery life of this Apple Watch is also very good. With a capacity of 542 mAh, this smart watch can last up to 16 hours of use. In fact, if you use low power mode it can last up to 60 hours.

This is certainly very useful for users. Especially for users who have high mobility. With this battery life, users don't need to worry that the smart watch will turn off when they are active.

Apple Watch Ultra is a smart watch series from Apple that is interesting to try. This article can be used as a reference for you when deciding to buy a smart watch from Apple. Make sure you buy the smart watch that best suits your needs.
