
Samsung Galaxy Z Fold 5 BMW Edition with Advanced Performance

The Samsung Galaxy Z Fold 5 BMW Edition is the latest release from Samsung's Galaxy Fold series. This smartphone is a product of collaboration between the automotive brand BMW and Samsung. Carrying a stylish concept, the Galaxy Fold BMW Edition comes with performance that is no less capable.

Samsung Galaxy Z Fold 5 BMW Edition design

In terms of design, this smartphone has a futuristic shape. Using aluminum armor material, the body of this smartphone feels sturdy and not fragile. Plus Gorilla Glass Victus 2 technology on the screen for optimal protection.

The design looks classy and luxurious, but remains ergonomic at the same time. This appearance is presented through a case with a beautiful motif plus a touch of the BMW logo. This case is available in the Galaxy Fold 5 BMW Edition box.

The overall appearance of the design looks very luxurious and elegant. There are several colors presented in the Z Fold smartphone series this time. Starting from black, white, blue, and others.

Performance

Using the Snapdragon 8 Gen 2 chipset equipped with an Octa core CPU and Adreno 740 GPU, promising satisfactory performance. It could be said that this flagship smartphone from Samsung outperforms all sectors.

Users can store various heavy applications on their smartphone. So, not only can it support the use of light applications, this smartphone can also be used for work and entertainment at the same time. For example, downloading work manager applications and various heavy games.

This can happen thanks to the support of its storage capacity. The internal storage capacity of this smartphone is available in sizes 256 GB, 512 GB, and the largest is up to 1 TB. Additionally, it has a RAM capacity of 12 GB.

With a 7.6 inch screen, the resolution can reach up to 1812 x 2167 fps. This results in image quality that looks very detailed. In fact, the screen resolution is still supported by AMOLED 2X technology.

The 2X AMOLED technology on the screen provides sharp color displays and feels more real. This screen also has a fairly fast response and adaptation rate. The overall specifications of the Samsung Galaxy Z Fold 5 BMW Edition do not disappoint.

This smartphone's battery life is also long-lasting. Different from other smartphones, Samsung's Z Fold smartphone series uses dual batteries. With a capacity of 4,400 mAh each, this battery lasts up to 73 hours.

Camera

Just like flagship smartphones from other series, the Z Fold BMW Edition also has professional-like camera quality. The main camera has a resolution of 50 MP which is equipped with dual pixel technology. This technology provides sharp and focused photos like a professional camera.

Not only that, there is also a telephoto camera with a resolution of 12 MP. Equipped with optical zoom, OIS and PDAF features, the image capture results are maximized. Meanwhile, the front camera uses a 24 mm lens with a resolution of 10 MP.

The review of the Samsung Galaxy Z Fold 5 BMW Edition from the camera side proved to be very satisfying. The images and videos captured are very clear and have good color balance. Including when used in low light conditions.

Feature

For several supporting features, there is a fast charging feature and also wireless charging. Plus fingerprint features, Samsung DeX, UWB support, etc. These features are provided to provide convenience for users in their daily needs.

Price

The price of the Samsung Galaxy Z Fold 5 BMW Edition is indeed a fantastic number. When it was first released, the price reached 26 to 30 million rupiah. Now the price is still the same in offline and online stores.
